

# What Is Life Without Love (Tell Me)

©1986 Joe Streno / Elemental Music

Long ago when time began...man loved his woman  
Woman loved her man  
Later on came progress  
That's when they laid love to rest

Tell me....what is life without love  
Tell me....what is life without love  
Tell me....what is life without love  
Tell me....what is life without

It's the will...it's the way...it's a dead mans' story  
To last weeks lover and this weeks deb  
Deadman revels in his glory  
As he digs his own grave  
He doesn't know that last weeks lover is the debs best friend

(chorus x 1)

It's a man all private with a major movie  
Dying to hear who will win the war  
While the loose tenant upstairs battles it out  
Her soldier of misfortune starts maneuvers  
But she has a headache

Without love....they live alone  
Without love....even when they're both home  
Without love....they'll never make up  
Without love....they're 'gonna break

(chorus x 1)

Without love....life is a zero  
Without love....no lovers no heroes  
Without love....life is so empty  
Without love....it's all second rate

(chorus)

It's a boy with his mates trying to prove his manhood  
With stories more fictitious than the books he's said he's read  
He's the type that uses study guides...sorry there's no pictures  
But when it comes to love you've got to read the text

(chorus x 2)
